

TAPAWASEE 2 MONITORING SYSTEM

Innovation is the cornerstone of our business....

Introducing the versatile Tapawasee2, the Sentry monitoring device, capable of monitoring temperature, humidity and light. More than just a data logger, Tapawasee 2 has an inbuilt 4G modem that connects with the Sentry cloud-based monitoring platform every 5, 10, 15, 30 or 60 minutes to allow you to see what is happening with your shipment in real time. The platform is accessible via web browser or the Sentry App. Tapawasee 2 is simple to use and with its inbuilt Global SIM card can be used almost anywhere in the world.

Tapawasee 2 comes in two versions :

- Inbuilt temperature, humidity and light measurement
- External temperature probe and inbuilt light measurement

Tapawasee 2 has a 30 day battery life based on 30 minute reporting intervals and is simply recharged via a USB lead. Tapawasee 2 can also be permanently powered.

Reports of temperature, humidity and light measurements are available through the Sentry temperature monitoring platform or by simply plugging the Tapawasee 2 device into a computer.

Capable of monitoring temperatures within the range of -20°C to +60°C Tapawasee 2 serves a multitude of applications including transportation events and mobile catering.

Key Features

- ▷ Records temperature, humidity and light
- ▷ Tracks temperatures in real time via web browser and Sentry App
- ▷ Adjustable time interval reporting
- ▷ Automatically generates PDF report when plugged into computer
- ▷ Multiple user access anytime, anywhere via web browser or Sentry App
- ▷ Accurate sensor temperature measuring technology
- ▷ Works on the 4G mobile network
- ▷ Works almost anywhere in the world with inbuilt Global SIM card
- ▷ Rechargeable battery with up to 30 days between charges based on 30 minute reporting intervals (60 days on 60 minute reporting intervals)
